

## Hartman Value Profile: Clarity

# Clarity

**Clarity:**  
a measure of your natural ability to see and understand. The greater your clarity the more accuracy and precision you have in the judgments that are made in that dimension.

- **Crystal Clear**
- **Clear**
- **Visible**
- **Transition**
- **Unconventional (World Dimension Only)**

**Clarity** is a measure of your natural ability to see and understand each value dimension. The greater your clarity the more accuracy and precision you have in the judgments that are made in that dimension. Each level of clarity has its own strengths and limitations.

- **Crystal Clear:** The ability to be very insightful, to distinguish differences both good and bad, and to be sensitive to all aspects of the dimension.
- **Clear:** The ability to be in touch with key aspects of the dimension but to overlook some aspects due to allowing some information in and filtering other information out.
- **Visible:** The ability to be in touch with and distinguish some specific aspects of a dimension clearly but overlook or not see other aspects due to selective filtering.
- **Transition:** Indicates the value dimension in question is likely to result in inaccurate or inconsistent decision making leading to mistakes in judgment.
- **Unconventional (World Dimension Only):** The classification of unconventional represents 'out-of-the-box' thinking or mindset. It indicates your natural ability to see things and respond to them in ways which others overlook because you think differently than others
